

MRBK

Two-Factor Authentication VPN

PERSONAL AND CONFIDENTIAL - DESTROY ALL COPIES AFTER USE!**1) Learn how to connect while away from the office**Browse to <http://vpn.mcgilloway-ray.com>.**2) Install an authenticator app on your phone**

You may use *Microsoft Authenticator*, *Google Authenticator*, or any other authenticator that supports standard 6-digit one-time passcodes. If you already have one installed, just use it instead of installing another one.

3) Create the OTP on your phone

Open your authenticator app and scan the QR code below.
